

CMPE 261: Large Scale Programming

Worksheet 1B

Istanbul Bilgi University

Fall 2021

Part I

Create a `Company` class that has at least three properties.

Part II

Write proper constructor and other methods required for the class (get & set, toString etc.)

Part III

Write at least 5 different methods considering the applications of `Company` class. Your methods must handle **exceptions**.

Part IV

Write a `Test` class and use the methods written in `Company` class.

Note: Do not compress your files, submit only java files.

Note: Do not forget to justify your answers with comments. The codes without comments will not be evaluated.
